# COMPANY INTRODUCTION

Founded in 1995, QUNDA CONTROL TECHNOLOGY (JIANGSU)CO., LTD is a company covering an area of 23000 square meters and the manufacturing plant covers 55000 square meters. Our main products include control system for air conditioner and for various household appliances. We also produce different remote controllers for air conditioner, TV, set-top box, learning remote, decoders and test instruments allied to remote control etc.

In our manufacturing center, we've got advanced manufacturing equipment and assembly lines. For example, SMT automatic placement machine, automatic plug, injection molding machine, re-flow soldering machine, wave soldering machine.

Qunda is identified as "High-tech Enterprise in Jiangsu Province". Since 2000, we have been rated as "Credit Enterprise" in succession and "Enterprise of quality credit with AAA grade" as well as "famous brand in Jiangsu Province".

We've got national patents for several technologies. For example, "Mix-coding method for transmitter of TV remote control", "Coding method for universal remote control" "One Key Controlling Method for Intelligent Air-Con Remote" and the patent for shape design.

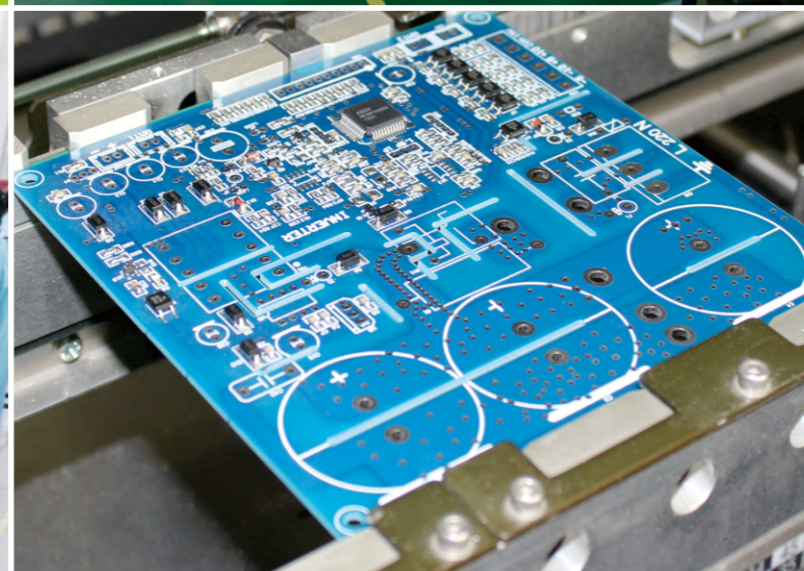

Having been in this line for more than 20 years, we have committed to the production of remote control with high quality. Production of the best remote for customers is our unchangeable pursuit. We are professional, devoted and credible. We are also a good partner. With high quality and competitive price, our products have worldwide sales. So you can just rely on us.

Located in Suzhou, a beautiful, historical and open city with high-tech industry, Qunda is waiting for your visit and further cooperation.

**23,000** m<sup>2</sup>  
**55,000** m<sup>2</sup>

The company covers 23000 square meters,  
And the manufacturing plant covers 55000 square meters.

# CERTIFICATE

Qualification and certification comes from the recognition from society and allied industry, which means more responsibilities. It is also the motivation that propels Qunda to stand out in the market. Through intelligent and creative work, Qunda has made many achievements and won the recognition and respect from society and the public.

We are identified as "High-tech enterprise in Jiangsu province". Since 2000, Qunda has been rated as "Credit Enterprise" in succession and "Enterprise of Quality Credit with AAA grade" as well as "Famous Brand" in Jiangsu Province.

We are proud to be the "Reliable and Reputable Company" honored by Administration for Industry and Commerce of Suzhou every year since 2000.

For years' endeavor, QUNDA has been recognized by society and the public.

# CERTIFICATE

The "Mixed-coding method for TV remote control" invented by our technical team was patented by Patent Office of the People's Republic of China on Nov.10th 2004 after two-year's evaluation; and it is valid in twenty years.

The main characteristic of this coding method is that in a group of code which combined in series, it will choose valid periods through various original code periods as the mixed code for coding. A remote control applied with this coding method will be universal at the same time no setting procedure required. It will automatically search and match various TV or Air-conditioner models of different brands. That is to say, a universal remote with this coding method can control varied TVs or A/Cs without setting procedure first. No other method can get this result of no-setting, except our patented one, therefore it is illegal for other manufacturers to use similar technical method for universal remote control production, and all of our rights are reserved.

Patent of Invention:  
Coding Method for Universal  
Air-Condition  
Remote Control  
Patent No.: Z12008 10023186.7

Patent Invention:  
Coding Method for One-Key  
Intelligent  
Air-Condition Remote Control  
Patent No.: ZL2009 10234882.7

Patent of Utility Model:  
One-Key Intelligent Air-Condition  
Remote Control  
Patent No.: Z12009 2004 9418.6

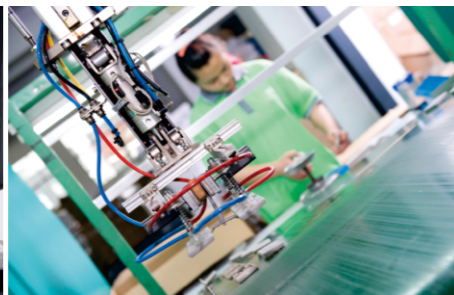

# MANUFACTURING PROCESS

The ultimate quality comes from top manufacturing technology. Be equipped with advanced machines, Qunda strives for updating manufacturing devices and improving manufacturing technology.

Superb technology

For Split Air Conditioner		
	<p><b>Universal Air conditioner control system</b></p> <ul style="list-style-type: none"> <li>• IR receiver</li> <li>• Double sensors</li> <li>• Switch power: AC 100-240V</li> </ul>	<p><b>Universal Air conditioner control system</b></p> <ul style="list-style-type: none"> <li>• Double sensors</li> <li>• High-power output</li> <li>• PG motor</li> </ul>

**QD-U05PGC+**

For Split Air Conditioner

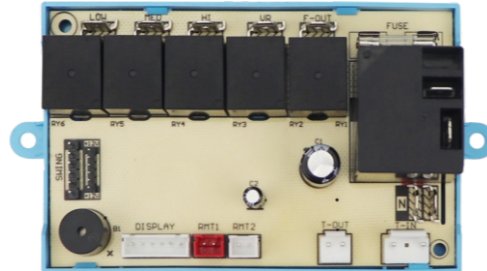

**Universal Air conditioner control system**

- Auto restart
- Stepless speed regulation fan
- Outdoor fan controlled independently

**QD-U08C**

For Split Air Conditioner

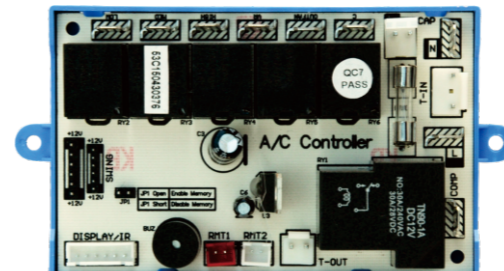

**Universal Air conditioner control system**

- Auto restart
- Digital temperature display
- Outdoor fan controlled independently

**QD53C**

For Split Air Conditioner

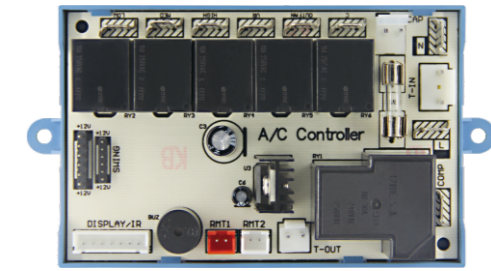

**Universal Air conditioner control system**

- Restart function after power failure
- Outdoor fan controlled independently
- Unique one key for 26°C environmental comfort cooling mode

**QD55PIR**

For Split Air Conditioner

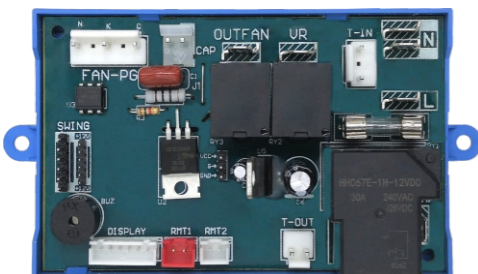

**INTELLIGENT Universal Air conditioner Control System**

- It can detect human motion and regulate air energy-savingly
- Restart function after power failure
- Outdoor fan controlled independently

**QD-U08PGC+**

For Split Air Conditioner

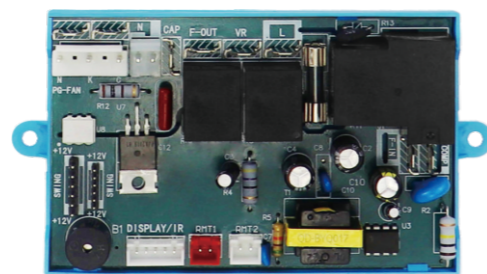

**PG motor series Universal Air conditioner control system**

- PG motor
- Digital temperature
- Outdoor fan controlled independently

**QD-U08PGC+(SW)**

For Split Air Conditioner

**PG motor series Universal Air conditioner control system**

- Switch power
- PG + tap motor
- Bigger LED display

**QD55DC**

For Split Air Conditioner

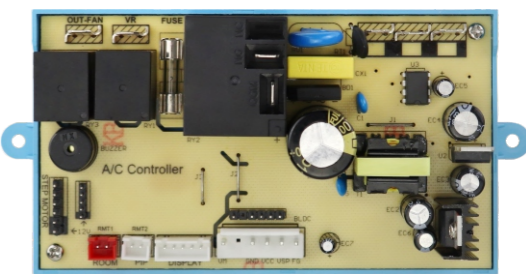

**Universal Air conditioner control system**

- Special use for 310V DC fan
- Strong start capacitor for fan motor
- Auto restart function

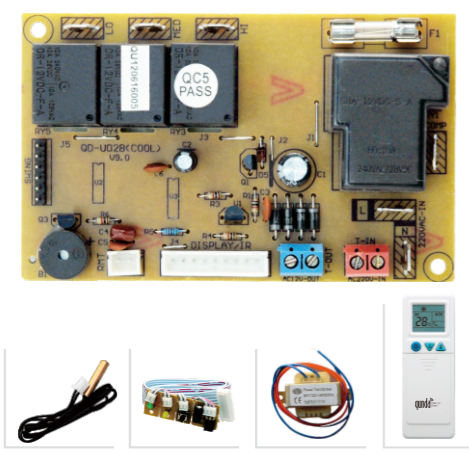

**QD55DC(SW)**

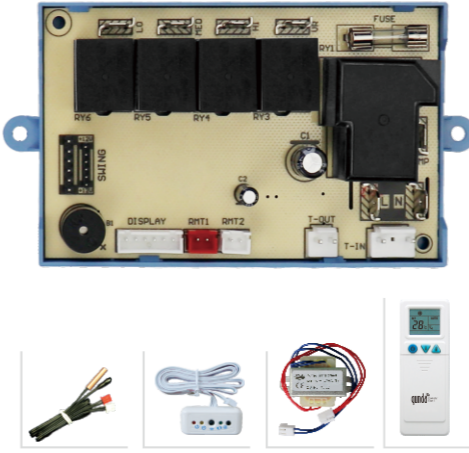

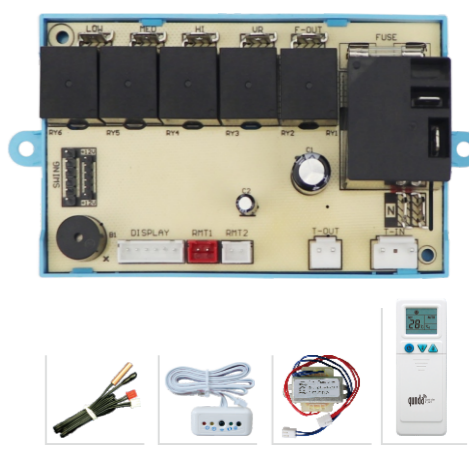

For Split Air Conditioner

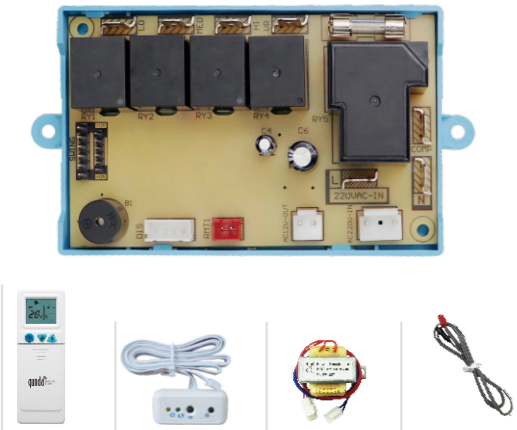

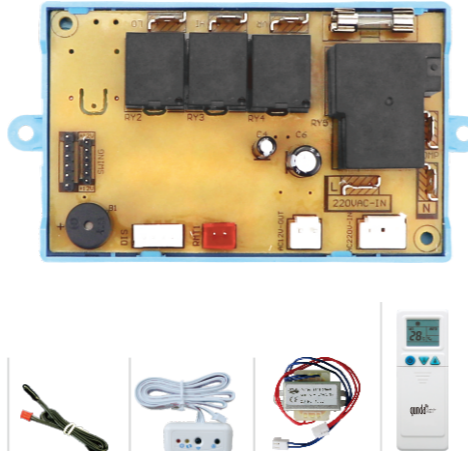

**Universal Air conditioner control system**

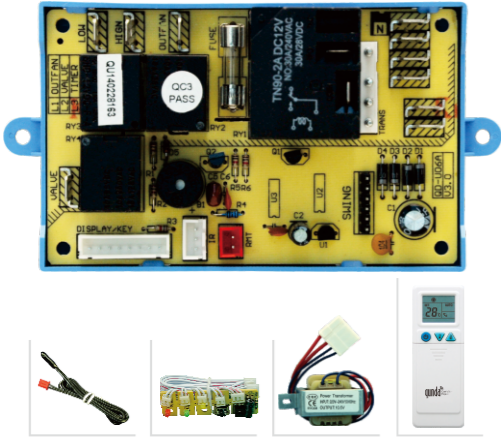

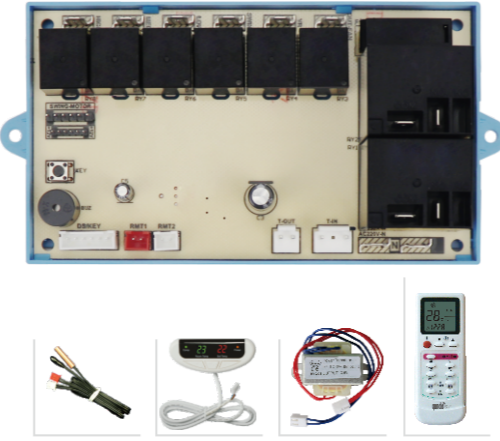

- Special use for 310V DC fan
- Restart function.
- Switch power.

## QD-HV123CW

### Touch-Screen Programmable Thermostat

- Colorful&Touching LCD screen
- Wireless control
- 7days programmable

## QD-HVAC23

Thermostat

GOLDEN SILVER WHITE

### Programmable Thermostat

- Switch power AC85-260V
- Full Power key with breathing light and whole
- touching screen

## QD-HVAC21

Thermostat

GOLDEN SILVER WHITE

### Programmable Thermostat

- Comprehensive screen design, integrated touch panel.
- The screen is PMMA 3D mirror design.
- Silver metal coating process.

## QD-HVAC15

Thermostat

### Programmable Thermostat

- Programmable thermostat
- 5+2 Programmable
- Easy to program
- Easy to install

## QD-HVAC15WIFI

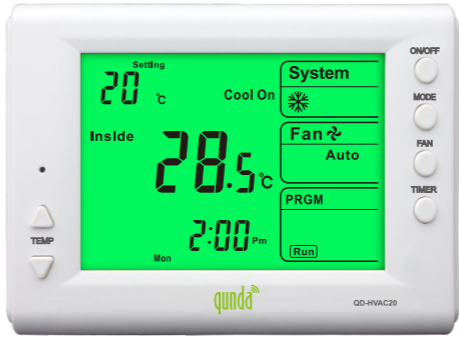

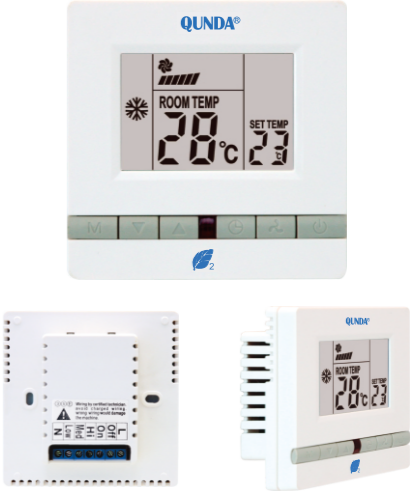

Thermostat

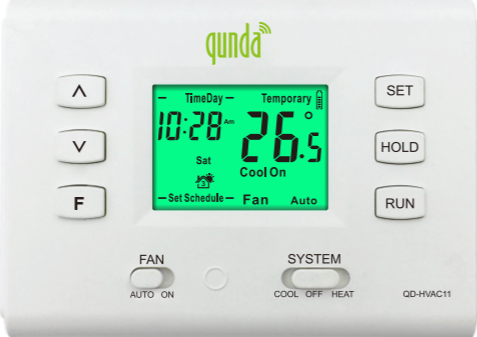

### Touch screen programmable thermostat WIFI version

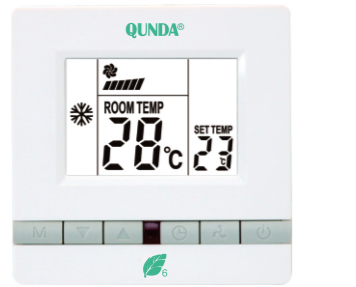

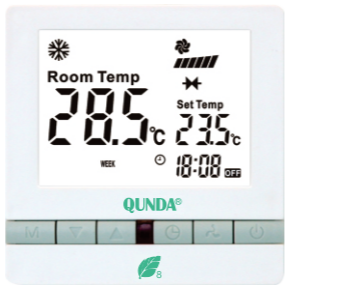

- Smart WIFI
- Capacitive touch screen
- Be able to operate your air conditioner whenever and wherever you are with your mobile phone.
